DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-2 and 5-20, in so far as they are drawn to a method for identifying agents that are inhibitors of tau-beta amyloid complex formation wherein tau polypeptide is identified by SEQ ID NO: 2, classified in class 435, subclass 7.92, for example.
 - II. Claims 1, 3 and 5-20, in so far as they are drawn to a method for identifying agents that are inhibitors of tau-beta amyloid complex formation wherein tau polypeptide is identified by SEQ ID NO: 4, classified in class 435, subclass 7.92, for example.
 - III. Claims 1, 4 and 5-20, in so far as they are drawn to a method for identifying agents that are inhibitors of tau-beta amyloid complex formation wherein tau polypeptide is identified by SEQ ID NO: 6, classified in class 435, subclass 7.92, for example.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are directed to different methods that recite structurally and functionally distinct

Art Unit: 1646

elements, are not required one for the other, and therefore constitute patentably distinct inventions.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their recognized divergent subject matter and non-coextensive literature and sequence searches, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Olga N. Chernyshev whose telephone number is (703) 305-1003. The examiner can normally be reached on Monday to Friday 9 AM to 5 PM ET.
